

## Latest Monthly Statistics

This page includes links to the latest release of the "Monthly Statistical Bulletin" which is published at the end of each month and contains the latest available values of a range of monthly or quarterly economic indicators. For comparison purposes, the values of each indicator a year ago and in the previous period are also given.

The links below will display different sections of the Bulletin. A full copy of the latest bulletin can also be downloaded in Adobe Acrobat format.

The Bulletin is also freely available as a 4-page printed booklet. Please note that full times series for these indicators are given in the Quarterly Statistical Bulletin and the Annual Statistical Yearbook, which may be obtained from the office.
